

GeoMôn

ANGLESEY ROCKS!

Did you know that Anglesey's unique geology, landscape and culture have earned it international recognition as a UNESCO designated Global Geopark?

Were you aware that Anglesey was once thousands of miles away somewhere south of the equator and that its rocks are among the oldest in the world?

VOLUNTEERS ARE NEEDED!

Anglesey-based GeoMôn is a charitable body charged with promoting Anglesey as a Global Geopark for the benefit of the island's residents and its visitors.

GeoMôn has an information centre in Amlwch harbour.

Volunteers are needed to help man this information centre (no knowledge of geology necessary!) and to assist in any other way that might help develop the activities of GeoMôn. Walks highlighting the island's geology are held.

Do you have some spare time, no matter how little? If so, we would love to hear from you. Thank you!
